

QUICK TERMINAL GUIDE

1. Splash screen

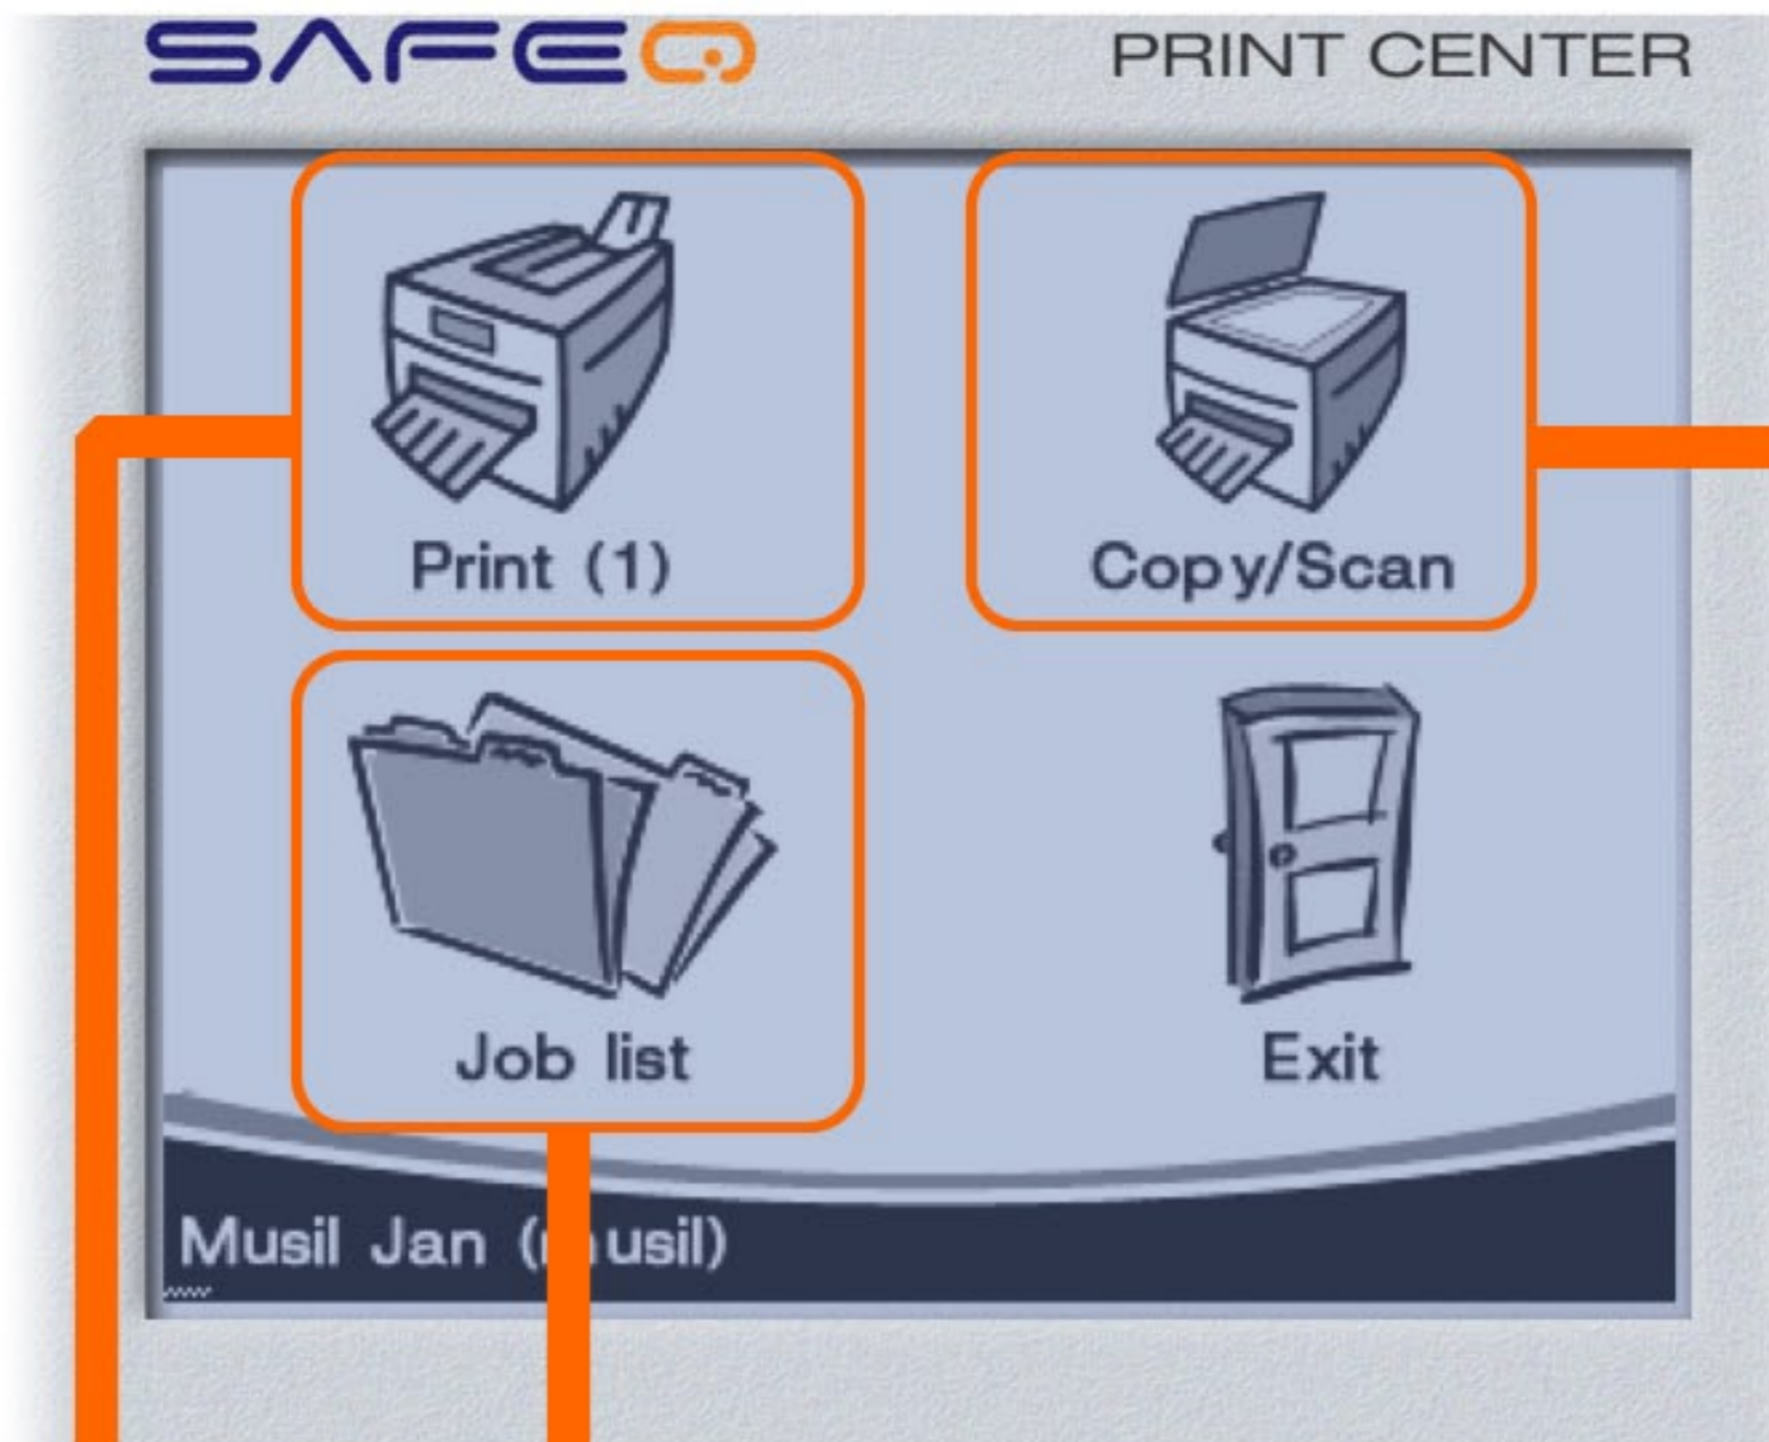

Place your card here.

i Here you can change the language for communication with the terminal.

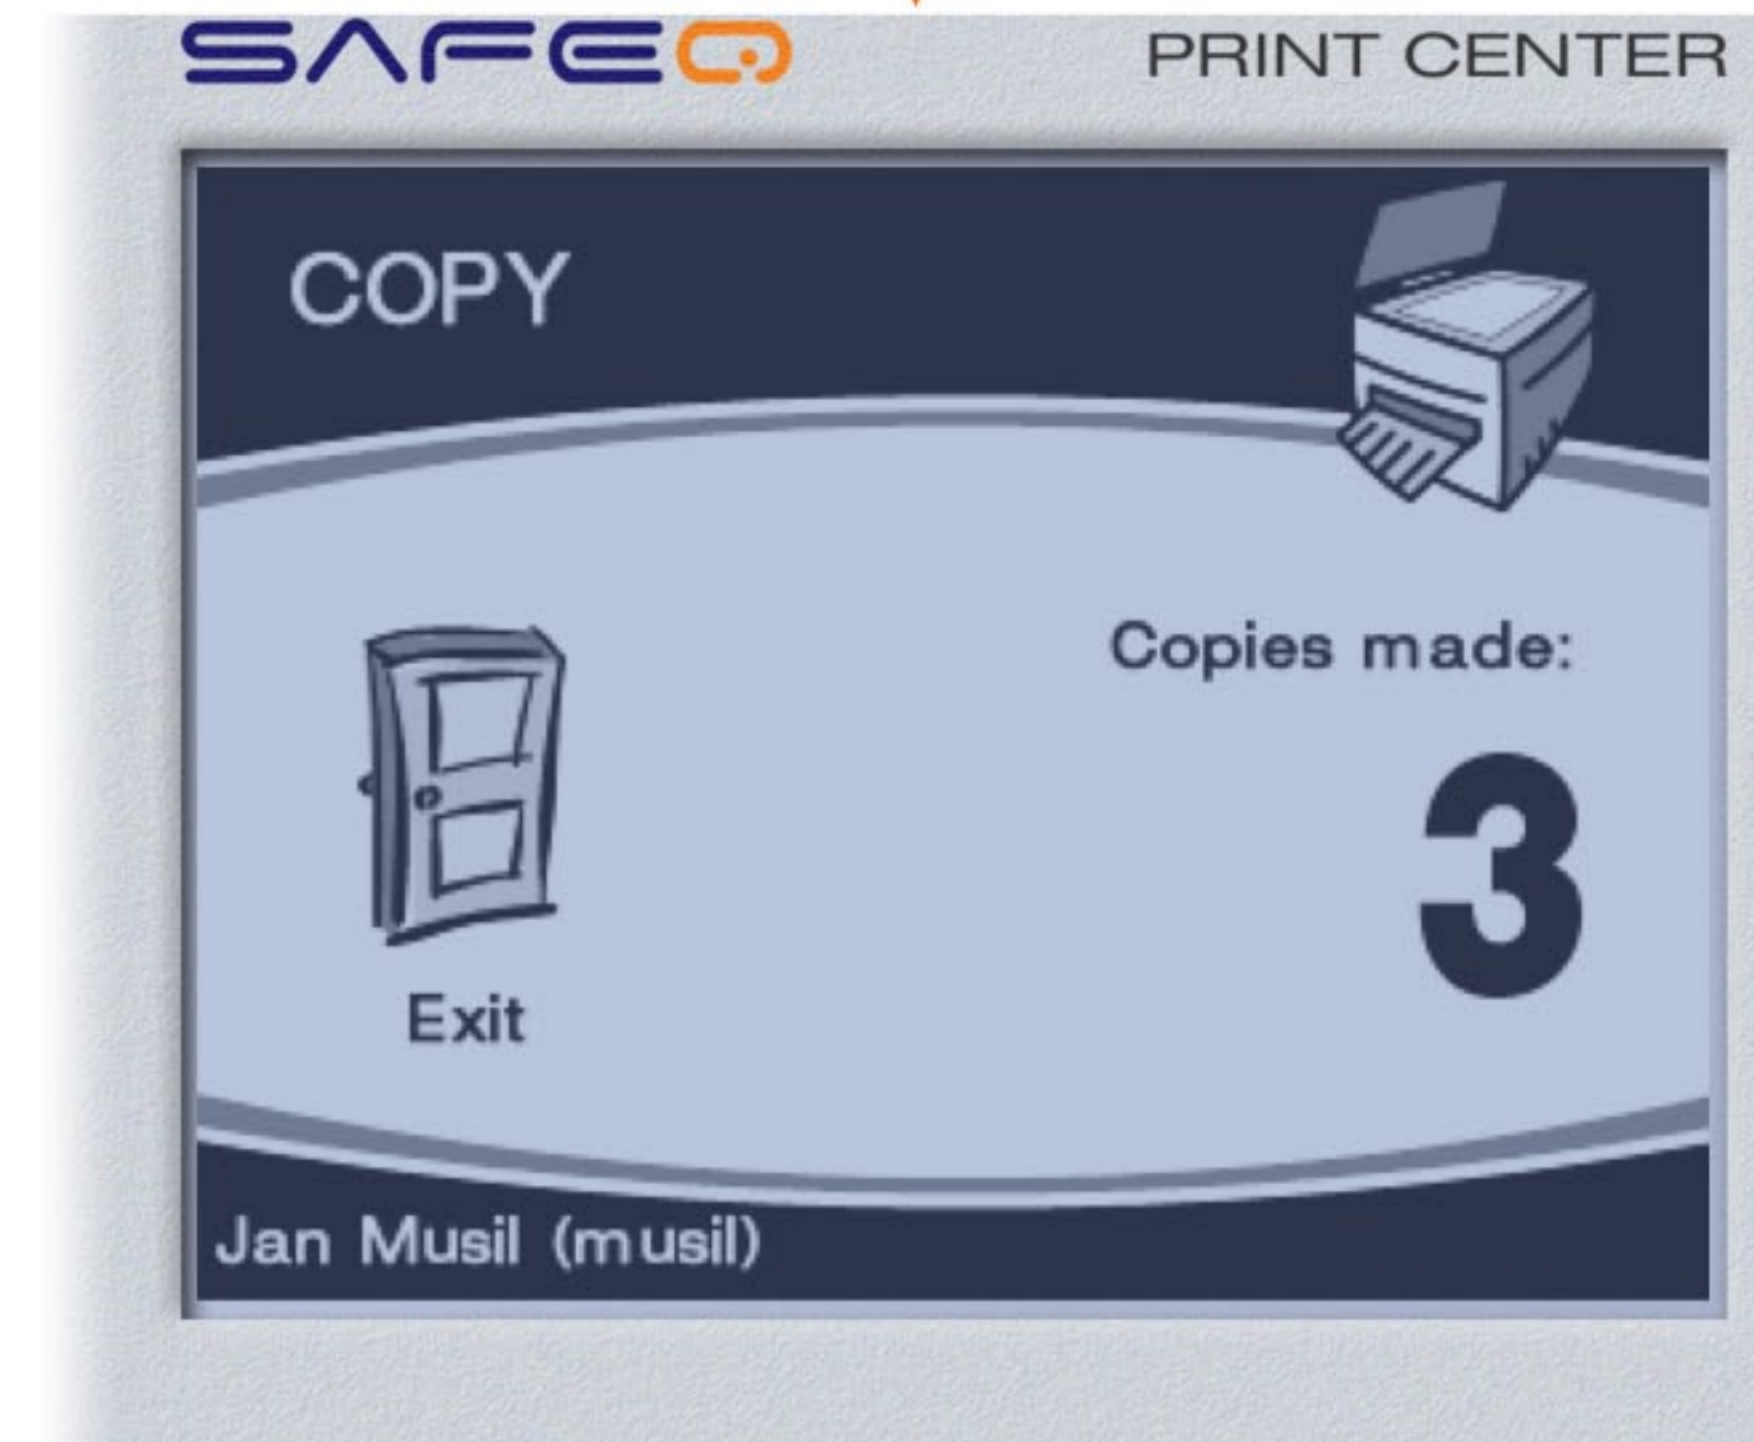

2. Main menu

Select operation.

3. Copying/Scanning

Device will be unblocked.

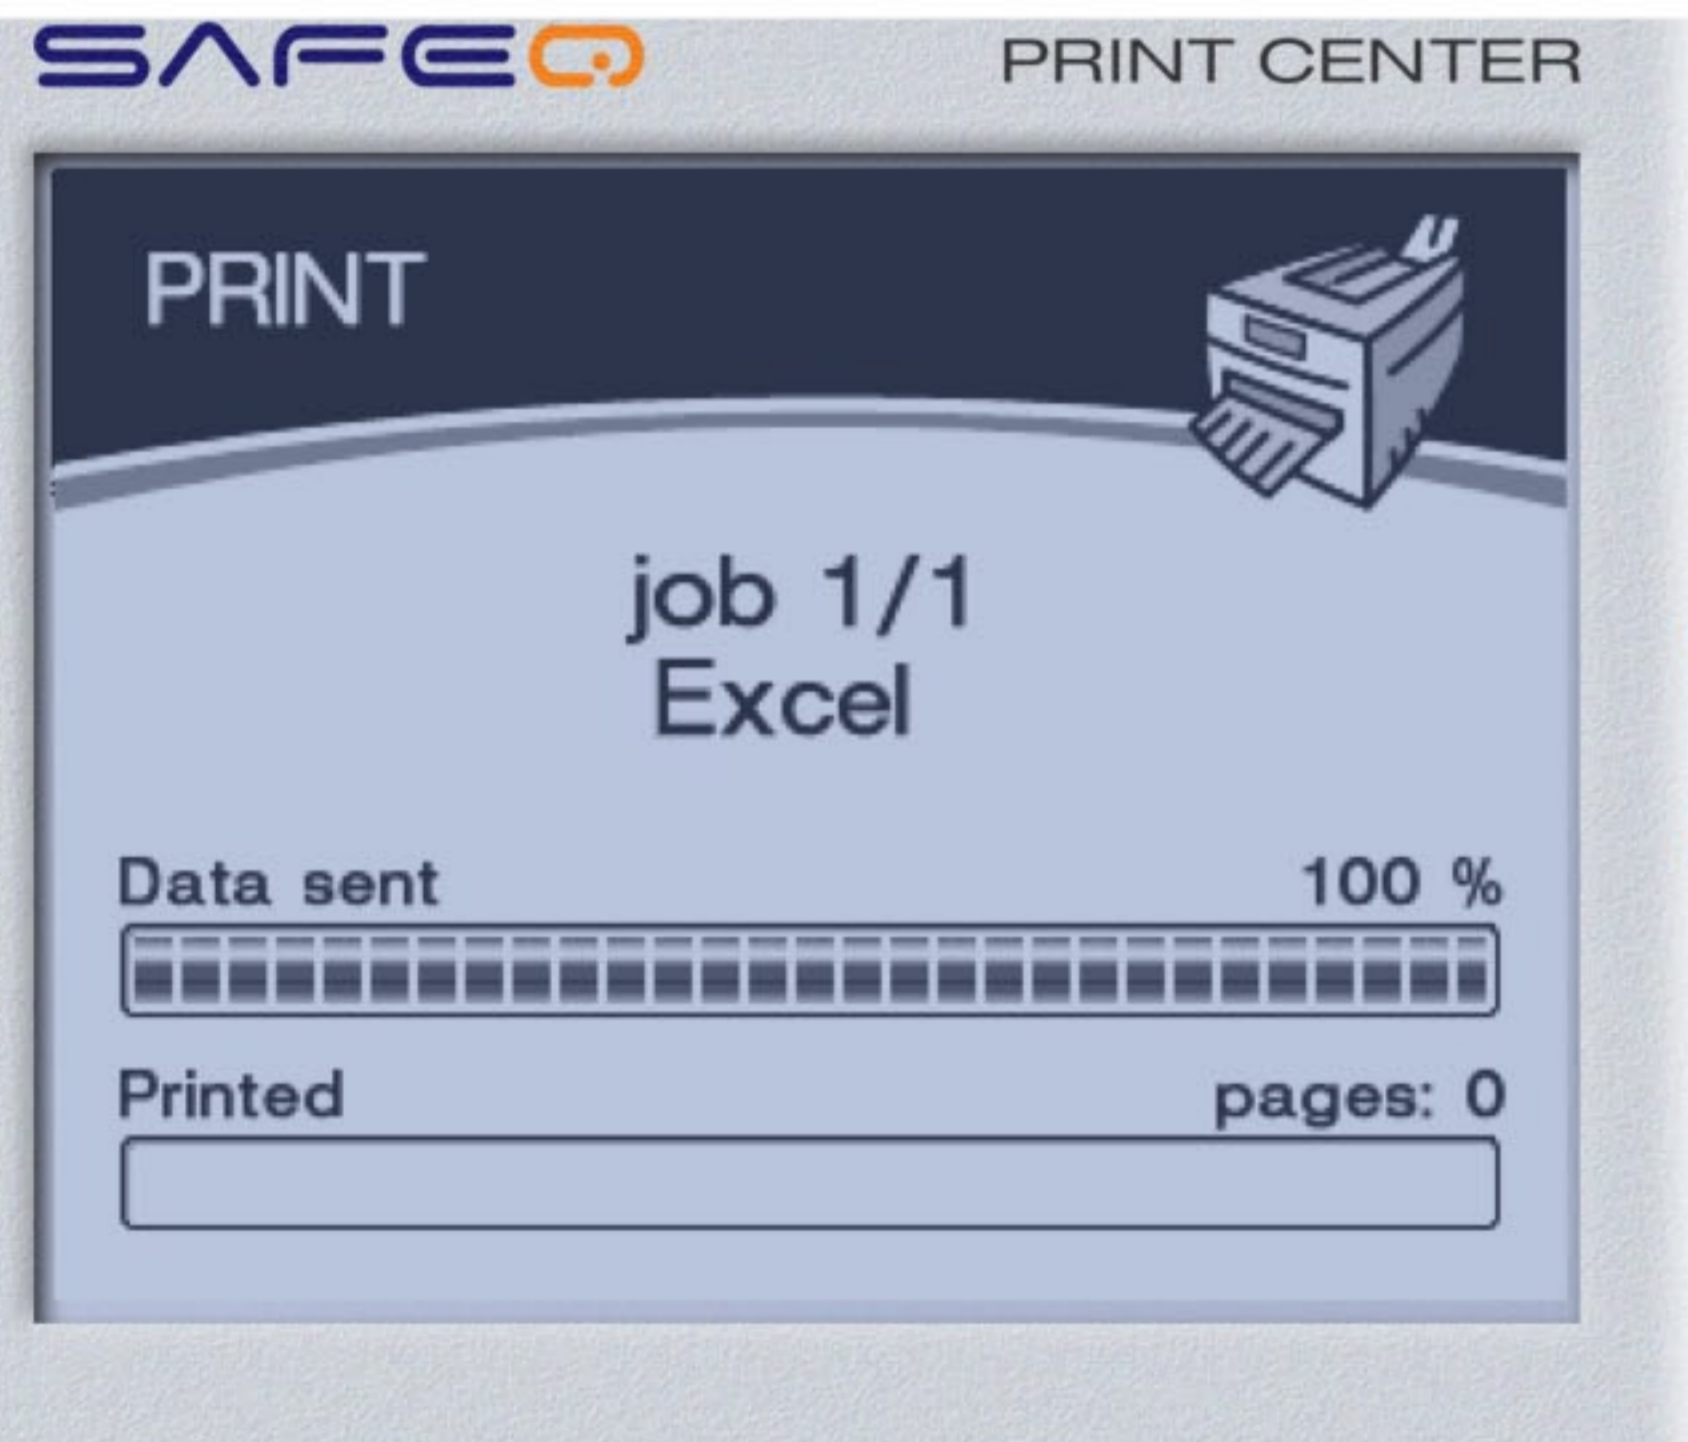

Now you can copy or scan.

To finish copying/scanning, press the Exit button.

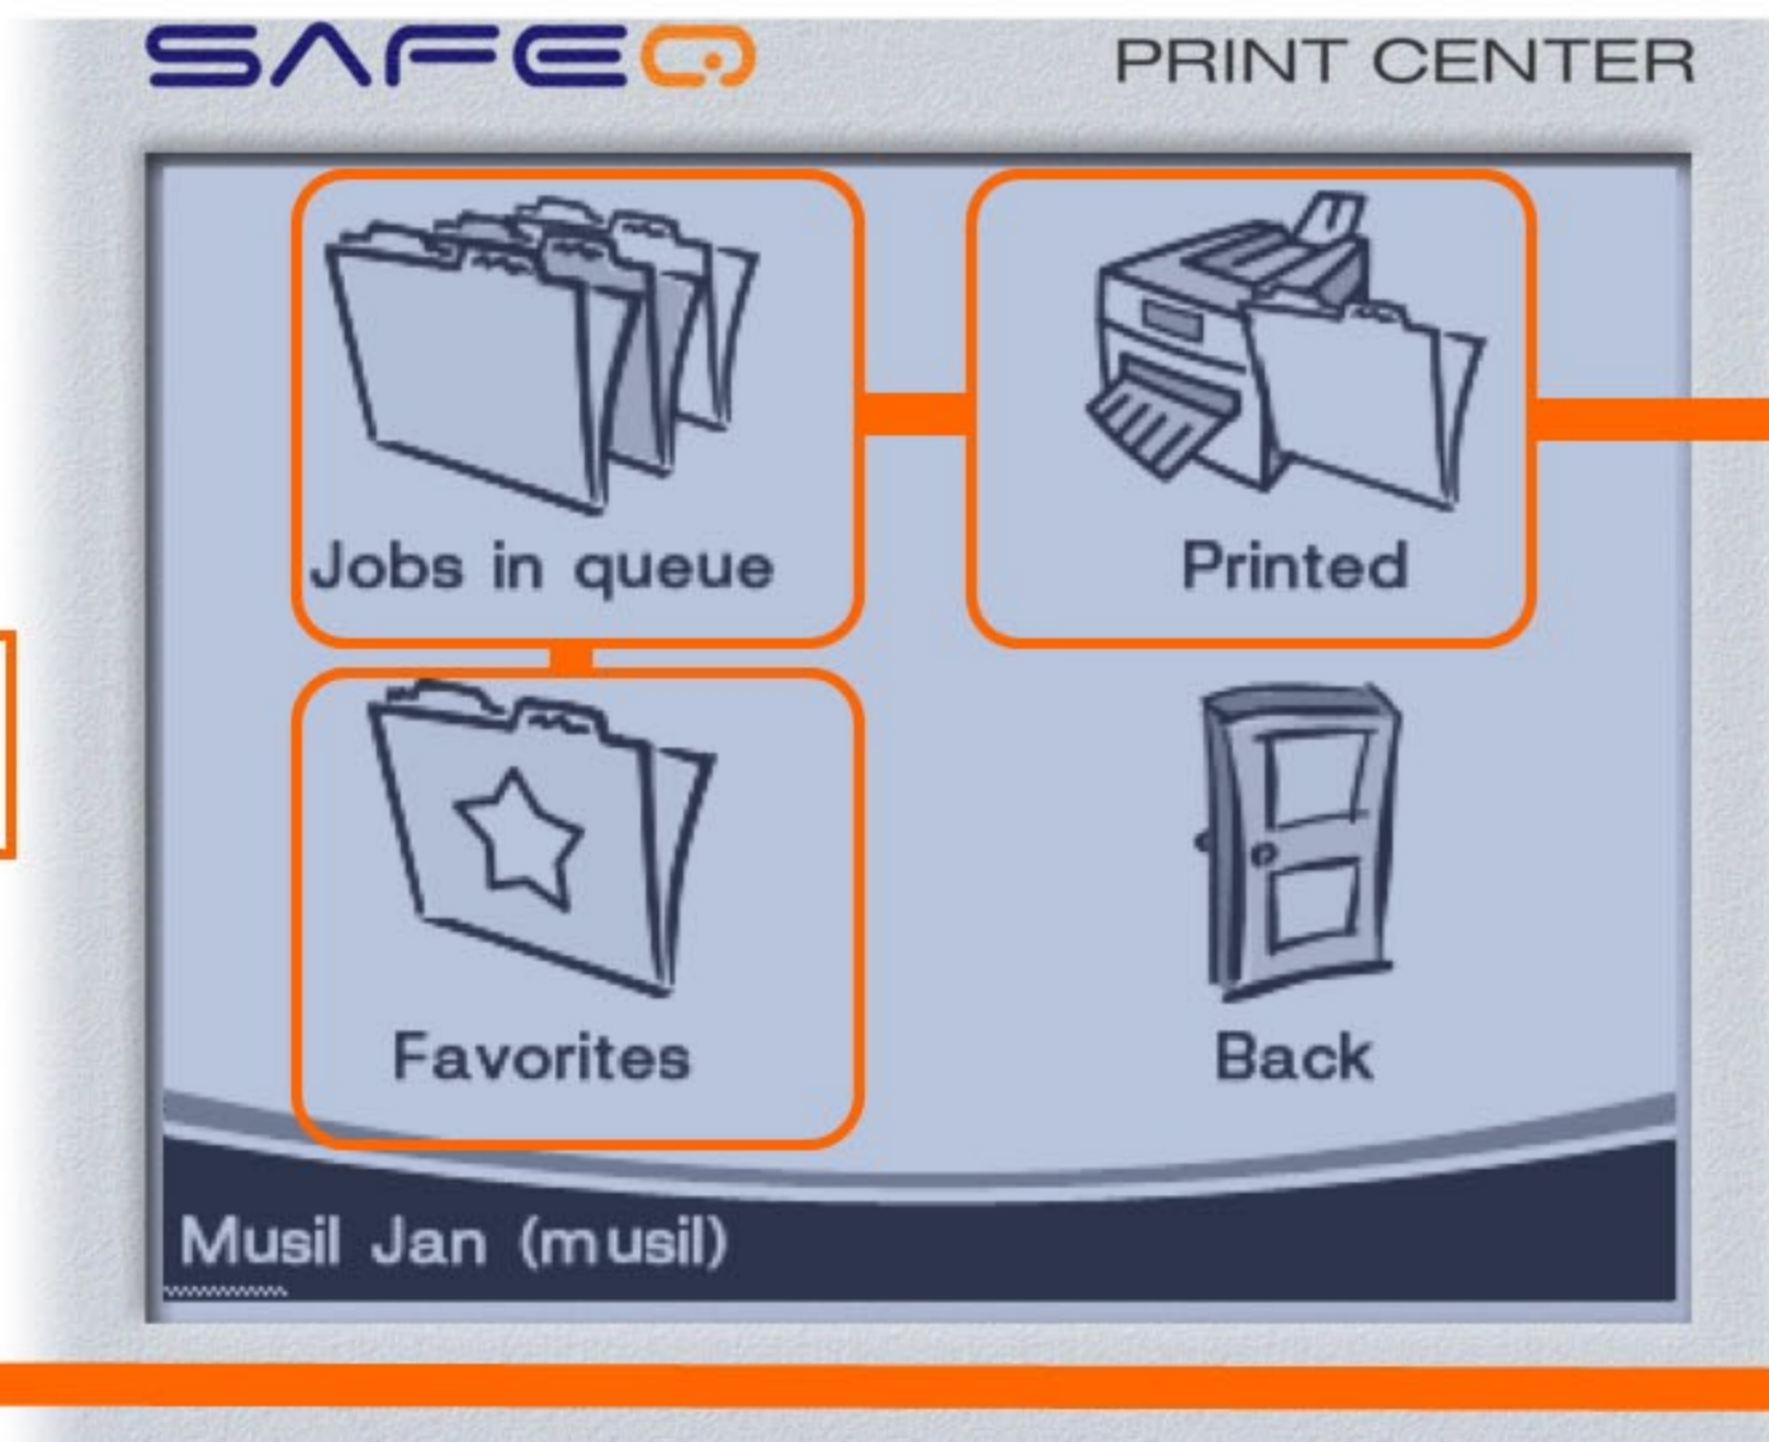

i Copying/scanning is finished automatically in a moment (typically in 3 minutes).

3. Print

All jobs in queue will be printed.

3. Job list

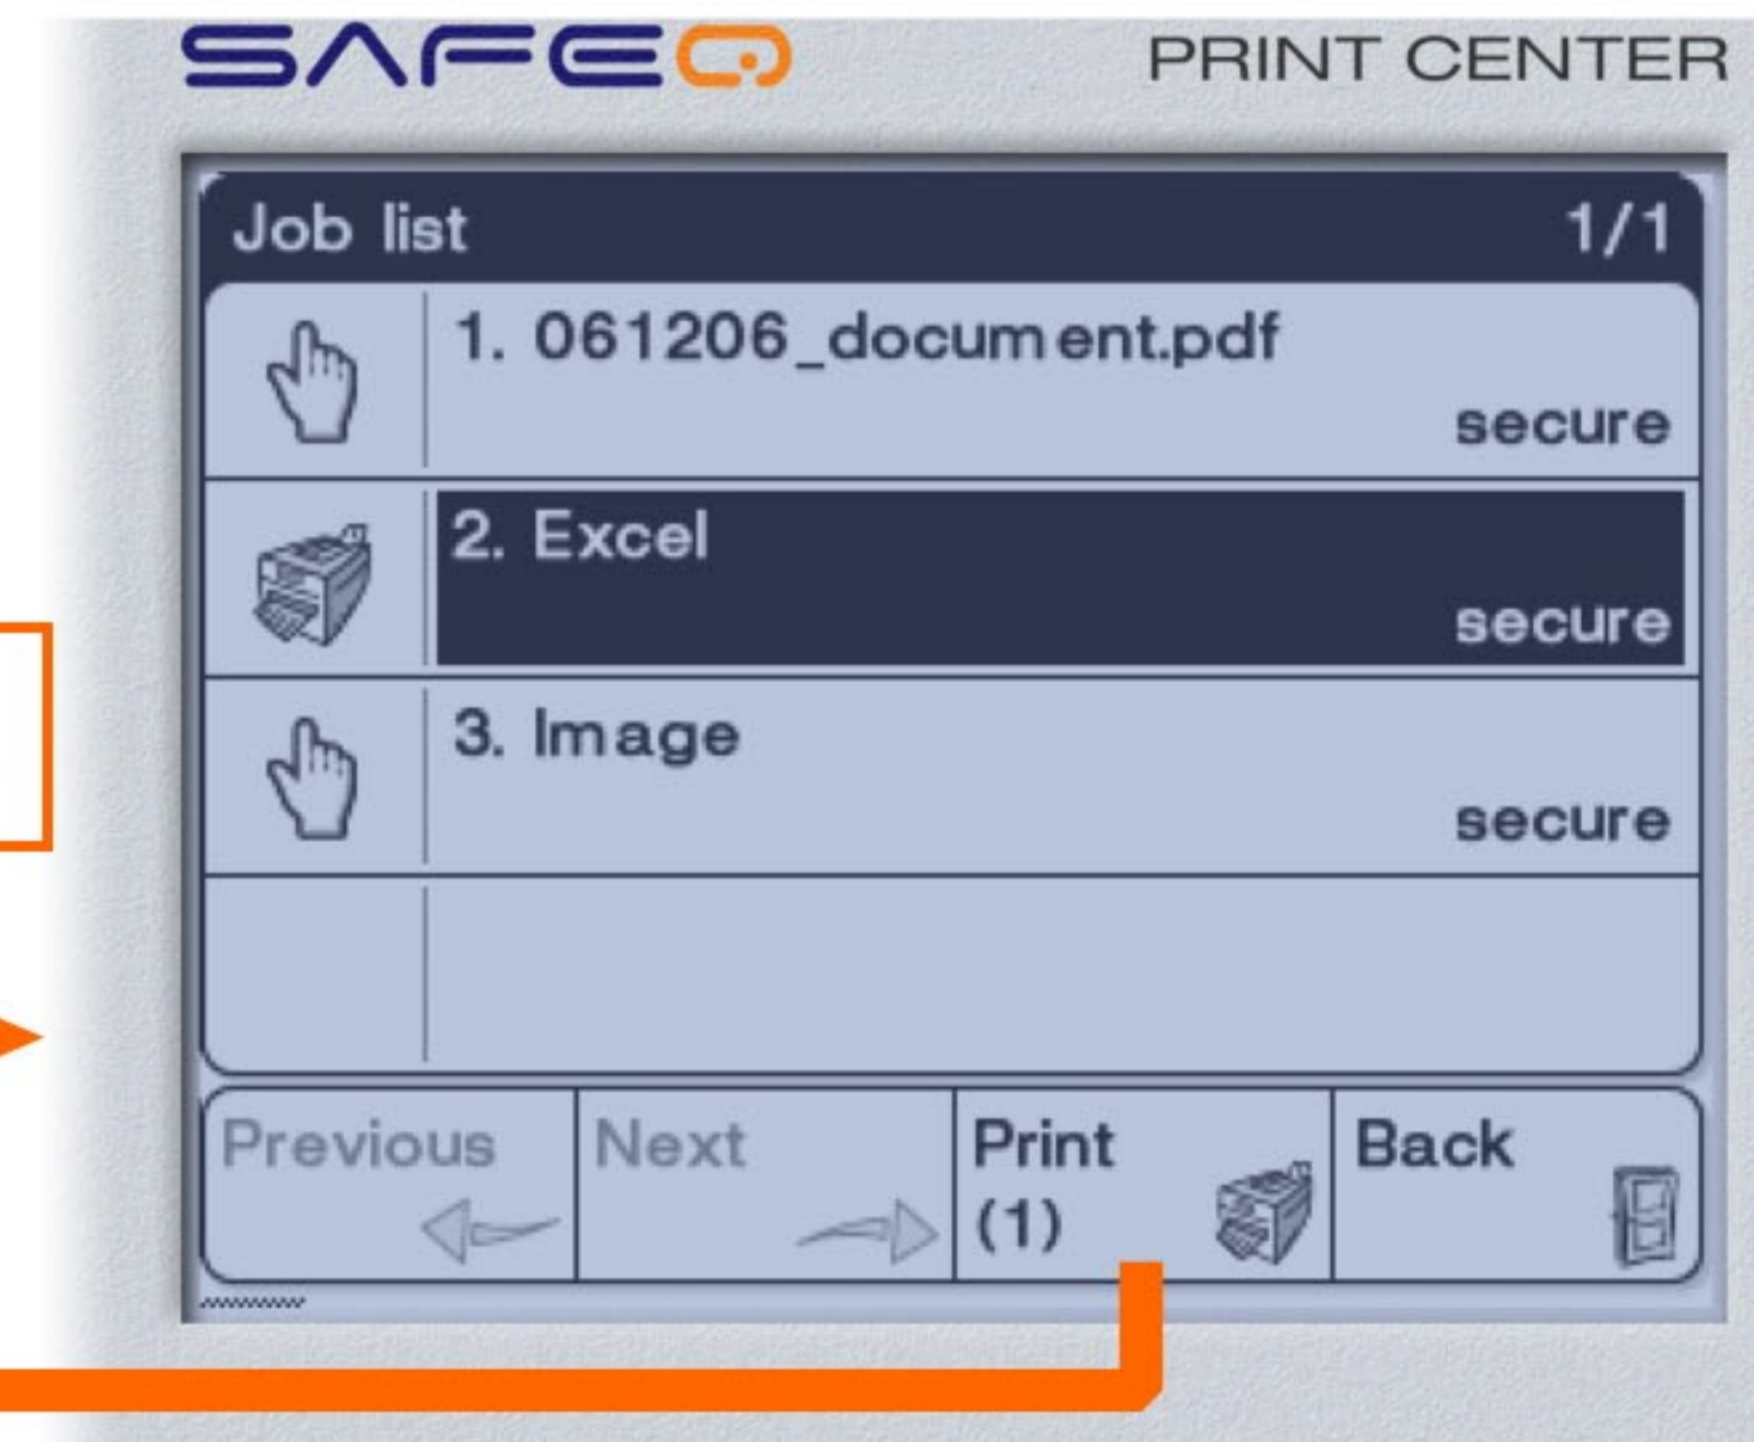

5. Printing

Select the desired kind of job by clicking on the corresponding pictogram.

i If you choose "Printed", you can also print jobs you have already printed.

4. Jobs

To mark the job, click on its name.

Click on the pictograms on the left and a menu will open where you can mark jobs to be deleted.

i The current number of selected jobs is shown with the "Print" pictogram.

i Jobs marked for deletion will be deleted after leaving the menu.
